

Short Bio – Albert J. Slap

Albert J. Slap is the President and Co-Founder of Coastal Risk Consulting, LLC, a geospatial technology, modelling, and analytics company located in Boca Raton, FL. Coastal Risk developed RiskFootprint™, the first software-as-a-service (SaaS) to provide residential, commercial, and governmental property owners with online, state-of-the-art, flood, natural hazard, and climate risk assessments at an affordable price. RiskFootprint™ is now a leader in online flood, natural hazard, and climate impact assessments, www.riskfootprint.com. RiskFootprint™ is recognized as a Climate Change Risk Assessment vendor by the United Nations Environment Programme. In addition to its RiskFootprint™ Hazard Assessment Technology, Coastal Risk provides unique, B-Resilient™ Advisory Services that help owners of large buildings make them safer and more resilient in a changing climate.

Prior to launching Coastal Risk, Mr. Slap was a nationally-recognized, environmental attorney and law professor. Over the years, Mr. Slap used America's environmental laws to protect public health and the environment by stopping water and air pollution, toxic waste dumping, and by forcing local governments to replace aging and polluting sewer infrastructure. Mr. Slap authored numerous legal articles and book chapters on environmental issues. In 2014, Mr. Slap was the recipient of the prestigious Marjory Stoneman Douglas "Defender of the Everglades Award" for his outstanding legal work. Since forming Coastal Risk, Mr. Slap has used his legal background and expertise to guide the development of the RiskFootprint™ to become the preeminent due diligence tool for portfolio risk management, property transfers, commercial loan underwriting, and property resilience assessments.
